

**Henry Ng**  
**Managing Director**  
**Critical Information Systems and Cybersecurity, Asia**  
**Thales**

Henry Ng is currently the managing director of Thales Critical Information Systems and Cybersecurity business line looking after the Asia region. He manages a regional team to help APAC customers protect against cyber security threats and manage IT security risks. Projects include conducting security review of NFC mobile payment solutions, developing security policies and supporting governance framework, performing IT risk assessment and audits, data privacy and mobile/web security reviews. Customers come from different industry sectors including banking and finance, insurance, telecommunications, transportation and utilities, manufacturing and higher education institutes.

He has been appointed as the adjunct professor for University Malaysia of Computer Science and Engineering, and serves in a number of cybersecurity professional bodies including the director of CSA Hong Kong and Macau Chapter and member of the Hong Kong Expert Group on Cloud Security and Privacy. Henry has been invited frequently as speakers and panelists in many IT security and risk seminars in the region. He also teaches IT security courses and helps promote security awareness to the local community by speaking in schools and the public.

Prior to joining Thales, Henry held senior positions at Verizon Business and HP consulting security practice team.

Henry is a Certified Information Systems Auditor (CISA), Certified Information Systems Security Professional (CISSP) and a certified Information Systems Security Architecture Professional (ISSAP). He holds a Bachelor degree in Computer Engineering from University of Michigan, Ann Arbor, USA.
